

CONNECTING CONTINENTS

About

XOtel is the largest alternative telecom in Latvia. Within almost 8 years on the market the company has become a leader in its segment and now it still continues to grow rapidly. XOtel has three representative offices in Latvia, Czech Republic and Ukraine.

You can meet our representatives at the largest telecommunications conferences, where XOtel is often not only a delegate, but a Prime sponsor. You may always find a list of conferences that we are going to visit in the Blog at xotel.com.

XOtel has gained a reputation of a stable and reliable partner through many years of successful cooperation with both major telecoms and mid-sized carriers. We are always looking for the most effective ways of interaction and provide services and solutions of the highest quality. Every year XOtel is confidently expanding its horizons by Connecting Continents.

Services

The company deals in Wholesale and Premium VoIP and SMS traffic transit trading all over the world. The main focus was on Europe and the CIS but since 2014 the company has started developing Middle East, Latam and Africa markets.

WE OFFER:

- wholesale voice trading
- wholesale SMS traffic trading
- TDM and VoIP interconnections

XOtel's telecommunications equipment is located in the Equinix and NewTelco data centers (Frankfurt am Main, Germany) that are considered to be the telecommunications and data transmission industry standards in Europe and worldwide. Due to it, XOtel is associated with major telecoms by fast and reliable direct connections providing large volumes and good connection speed.

Growth

In 2011 the company joined the TOP 500 fastest growing companies and at the end of 2014 we took a strong position in the TOP 200 companies showing a stable and rapid growth.
